

# Get VoIP Training Now!

## Sign-up for ABP's Reseller Training for VoIP & IP Communications.

In the new and dynamic field of IP Communications knowledge and professional training are a must. With all the new technology, a reseller must have the knowledge of not only working with specific products but also how to integrate everything.

ABP trains its reseller partners and offers an ABP P<sup>3</sup> Preferred Professional Partner Training with the following topics addressed:

- Overview of IP Phone and IPBX functionality
- Install, setup and configuration of IPBX and IP Phones
- Configuration examples, routing tables and call flows
- IP Phone and IPBX Troubleshooting
- Networking issues, basic security and POE
- Theoretical concepts and hands-on training
- Best practices for deployment of IPBX systems

ABP P<sup>3</sup> offers VARS added visibility and differentiation giving them credentials and market recognition as

trained professionals specialized in Open Standard multi-vendor VoIP solutions. ABP's Reseller training is hands-on and our trainers are specialists with long-term experience in helping resellers with field installations. We know you have limited time and resources so we give you a concentrated three days. Call 972-831-1600 for more details.
