

Get VoIP Training Now!

Sign-up for ABP's Reseller Training for VoIP & IP Communications.

In the new and dynamic field of IP Communications knowledge and professional training are a must. With all the new technology and equipment that is being manufactured, a reseller must have the knowledge of not only working with specific products but also how to integrate with everything.

Sales of IP Communications solutions need to be consultative and all recommendations need to be made from the perspective of giving the customer the best solution for his needs. That requires not only a good knowledge on the customers business and requirements but also a deep understanding of what can be done and how it will be deployed and maintained.

ABP trains all reseller partners and offers an ABP P³ Preferred Professional Partner certification that identifies VARs commitment VoIP solutions. ABP P³ offers VARS

May Special: FREE 1-Day Reseller Workshop
"Choosing Which IP-PBX Fits Your Customer Base"
Dallas, TX - May 18, 2007

added visibility and differentiation giving them credentials and market recognition as trained professionals specialized in Open Standard multi-vendor VoIP solutions.

ABP's Reseller training is hands-on and our trainers are specialists with long-term experience in helping resellers with field installations. You will get first hand knowledge and learn from our years of experience. We know you have limited time and resources so we give you a concentrated three days. [Call 972-831-1600 for more details.](tel:972-831-1600)

The ABP P³ Preferred Professional Partner Training consists of VoIP Foundation and IP PBX "Boot Camp" of your chosen IP PBX – either Allworx, Epygi or PBXnSIP. In this training, the following topics will be addressed:

- Overview of IP Phone and IPBX functionality
- Install, setup and configuration of IPBX and IP Phones
- Configuration examples, routing tables and call flows
- IP Phone and IPBX Troubleshooting
- Networking issues, basic security and POE
- Theoretical concepts and hands-on training
- Best practices for deployment of IPBX systems

Take action in your future and sign up for the next training!
