

Aastra 6775ip

Comfort IP telephone for Aastra 800, OpenCom 100 and OpenCom 1000

The comfort phone Aastra 6775ip is a system phone for Voice over IP on OpenCom 100 and OpenCom 1000 over the standard Internet Protocol (IP).

The Aastra 6775ip offers the same functions and comfort as the conventional system phone Aastra 6775.

The difference is the behaviour in the network: The IP phone is logged in independently over the standard interface in the company network (LAN). On demand it can be used without own power feeding. Additionally a PC can be connected to the Aastra 6775ip with a switch, so that only one LAN port is needed at the workplace.

Features

- * IP system phone for OpenCom 100 and OpenCom 1000
- * Menu card function
- * Variable menu structure, depending on condition of conversation
- * Volume adjustable (handset, loudspeaker, ringing tone)
