

Switchvox

It's more than a phone system.
It's a better way to communicate.

Saves You Money

Unlike other proprietary systems, Switchvox gives you more value for your purchase. With all features included, multiple deployment options, less add-on fees, and a simplified pricing model, Switchvox is the best value in Unified Communications (UC).

Powerful Unified Communications Features

Switchvox is equipped with UC features that will change the way your organization communicates both internally and externally. Easy-to-use features, such as presence, instant messaging, mobility, conferencing, and voicemail/fax to email, will boost employee productivity and allow them to work from almost any location.

Easy to Manage

An intuitive, web-based, point-and-click interface allows you to manage every aspect of Switchvox whether you are working in the office, from home, or even at a coffee shop.

Switchvox is the Best Communications System for Your Business

Switchvox is more than a phone system – it's a better way to communicate. The combination of Switchvox and Digium D-Series phones provides a complete Unified Communications solution for small and mid-sized businesses by integrating all of your office communications, including phone, fax, chat, and web conferencing, to give you a customized communications experience. It allows you to access call queues, presence, and the applications you need right at your fingertips!

With the Switchvox Softphone App for iPhone® and Android® and our web-based Switchboard and user interface, employees can be productive from anywhere. No longer are users tied to their desk whenever they need to make a phone call! Switchvox also has tools that can connect your existing software and applications, such as Salesforce CRM and Outlook, to better arm your users with the contact information they need, when they need it. **Talk about flexibility!**

Features Local Language Support

Switchvox and Digium phones have built-in multi-language support for use around the world. Not only is the Switchvox interface available in multiple languages, soundpacks are available for professional voice messaging. Digium phones are available in 7 languages, including Spanish, Portuguese, English, French, Italian, German, and Dutch.

Who is Digium?

Digium offers VoIP solutions that provide a competitive edge for small, medium, and large businesses. Digium's product lines include Asterisk® custom communications, Switchvox Unified Communications, Digium SIP Trunking, a line of VoIP gateways designed specifically for use with Switchvox and Asterisk, and HD IP phones available at a price all businesses can afford.

Digium is the creator, primary developer and sponsor of Asterisk, the world's most widely used open source communications software. Switchvox is the award-winning, UC solution built on the power of Asterisk with thousands of installations worldwide.

Switchvox Softphone for iPhone and Android helps maintain your brand by allowing users to make outgoing calls to your clients with your company caller ID.

*Switchvox Cloud and SIP Trunking are available only in the US lower 48 states.

Switchvox® and Digium® D-Series IP Phones

Advanced Phone Applications	■	■	■	■

* Each conference call participant is considered one concurrent call. If your organization wishes to use the call recording function for a large percentage of concurrent calls (~40%), you should purchase the next highest level appliance based upon concurrent call limits (ex. move from the E530 to the E540) for best performance.
